\$150 A YEAR

Entered at the postoffice, Lehi, Utah, as second-class matter.

### Our Pioneers.

The sixtieth anniversary of the arrival of Utah's pioneers into Salt Lake Valley is at our doors. There are still among us representatives of that first band of hardy pilots but they are few. Time has thinned their ranks and made white the brows of those who remain, but their faith and achievements still live, and will continue to live in the hearts of an increasing number, who will study with profit to themselves the founding of this great state.

There are those who came after that first band who are entitled to full as much honor, for their hardships were even greater in crossing the plains, and they have shared the burden of making a beautiful land out of a barren desert. Too much respect cannot be shown to the old veterans of an earlier day. Their deeds of valor should be retold, their sacrifices remembered, and their integrity and devotion to principle kept constantly in mind.

Lehi has very appropriately decided to celebrate Pioneer Day, every citizen, independent of creed, will be glad to do honor to our state's birthday.

### Plenty of Room For New Homes.

A section that not long since was considered almost worthless is rapidly gaining deserved recognition. It is the old "salt grass" pastures east of the city. With the advent of flowing wells it has been demonstrated that the mineral can be taken out of the soil and by drainage it can be made very productive. C. E. Ferrier now has a profitable farm on what was considered by old settlers a site fit only for a doge yard.

A little energy and means would no doubt make of much of the land between Lehi and the Miller Mills fertile tracts fit for orchard or garden. The fact that water may be had in abundance for field or culinary purposes is no small consideration in favor of this section for new

homes. We look to see the time when the city proper will include much of this land.

There is no boom on in Lehi, but a steady, solid growth is evident. Mechanics and builders are kept busy either building new homes or improving those already standing. Farmers are putting in about fifteen hours a day making the most of the season and bright prospects, and all others are just as busy as people could well be.

Ice Barrier Extends for Miles.

The unique floating ice barrier pushed out from the mysterious Antarctic land was found by Capt. Scott's expedition to extend 800 miles westward from the volcanoes Erebus and Terror, and more than 400 miles toward the pole, reaching beyond 82 degrees 17 minutes south latitude. The front runs 19 to 239 feet above the water.

### Thousands Have Kidney Trouble and Never Suspect It.

#### How To Find Out.

Pill a bottle or common glass with your water and let it stand twenty-four hours. A sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen, it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

#### What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized.

It stands the highest for wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, without charge.

#### Home of Swamp-Root.

Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

#### He Is in New York.

An Atchison paper asks, "What has become of the old-fashioned boy who fought against wearing his Sunday clothes?" He's in Wall street fleecing the lambs, using the same methods that he employed to organize a corner in marbles in the good old days.

#### Thrones of the Sultan.

The Turkish sultan has several thrones, of which the principal is in the palace of Dolma-Batche. It is a seventeenth century work and was constructed for Abbas the Great. It is of pure white marble, which is habitually covered with the richest of gold and cashmere shawls. The sultan when occupying it reclines against a cushion encased in a network of pearls.

### If You Are Sick

It is because some of the organs of the body are not doing their work well. There is a lack of that nervous energy that gives them motion. Consequently you are weak, worn-out, nervous, irritable, cannot sleep; have headache, indigestion, etc.

Because there is not sufficient nerve force to keep the organs active and allow them to perform their natural functions. Dr. Miles' Nervine restores health because it restores this nervous energy.

"I have been sick for a year and did not know what the matter with me. I tried many remedies and none of them seemed any value. I heard of Dr. Miles' Nervine and purchased a bottle, and before I had taken half of it I was better. I would have had nervous prostration if I had not taken Dr. Miles' Nervine. I am now strong again. I take it until I was entirely well. I have since recommended it to five of my lady friends, and they have all thanked me for doing so, for it has helped them."

MILES' NERINE CO., Columbus, Ohio.

Dr. Miles' Nervine is sold by your druggist with entire confidence that the first bottle will benefit you. If it fails, he will refund your money.
